It is extremely important parents abide by this rule to keep our students safe when arriving and departing from the school grounds. School finishes at 3:10 each day and if students are not going home on the bus they should be collected when school finishes.

CATCHING UP WITH TEACHERS

Before and after school is a very busy time in the day for teachers. We are either preparing for class or on duty with students. We would like to give you our full attention when discussing your child. If you would like to catch up with teachers, please make a prearranged time to do so. Thank you for your consideration.

THE RISK HELPS TO PROTECT THE ENVIRONMENT

Recently, Years four and six were challenged with an enquiry based project of their choice. The project had to be driven by a quest that students were interested in answering. Lucas asked 'How can we reduce the plastic in our oceans'. After investigating the environmental effects and quantity of plastic found in our oceans, Lucas has worked on a proposal suggesting how we could reduce plastic being used in our school and ultimately reduce the amount of plastic finding its way to the ocean. Lucas' proposal to reduce the plastic used in lunchboxes is supported by the staff and students at The Risk PS. Please have a chat with your child about ways to reduce plastic used in their lunch boxes and enjoy Lucas' report which is attached to today's newsletter.
